

NEW PRODUCT PRESS RELEASE

FOR IMMEDIATE RELEASE

EXTREME HIGH PRESSURE MEASUREMENT SOLUTIONS

Berea, Ohio (May 5th, 2009) NOSHOK provides a variety of measurement solutions designed specifically for extreme high pressure applications, such as water jet cutting, hydroforming, burst testing, high pressure filtration, high pressure/high torque tools, high pressure lubrication and high pressure pumping,

EXTREME HIGH PRESSURE GAUGES

With a standard accuracy of +/-1% Full Scale, NOSHOK's Extreme High Pressure Gauges are exceptionally reliable in demanding applications. They come with a standard 9/16"-18 UNF 3B High Pressure Process Connection, and are available in standard dry or liquid-filled configurations with most standard options and accessories.

NOSHOK 400/500 SERIES

Featuring a rugged stainless steel case and socket, and an open front design with blowout protection on the rear of the case, these gauges measure pressure ranges from 0-20,000 psig through 0-60,000 psig. Available in 4" and 6" case sizes.

NOSHOK 402/502 SERIES

These gauges' robust 6" design includes a solid front, safety case with blow-out back. They are engineered to measure pressure ranges from 0-80,000 psig through 0-100,000 psig.

NOSHOK 740/760 SERIES

With a 4-1/2" Phenolic Turret Safety Case, 740/760 Series gauges measure pressure ranges from 0-20,000 psig through 0-60,000 psig. They incorporate a rugged solid front, safety case and blow-out back.

EXTREME HIGH PRESSURE TRANSDUCERS

NOSHOK 615 SERIES

With a standard accuracy of +/- .25% Full Scale BFSL, NOSHOK's Extreme High Pressure Transducers provide highly precise measurement. Their robust design is engineered to measure pressure ranges from 0-20,000 psig through 0-145,000 psig, and features a standard 9/16"-18 UNF 3B High Pressure Process Connection. Available with 4-20A Current or Voltage optional outputs (0-10 vdc, 0-5 vdc etc.), and a full complement of optional electrical connectors.

NOSHOK, Inc. is a leading manufacturer of pressure and temperature instrumentation serving major industries around the world. Products include pressure gauges, pressure and temperature transmitters, transducers & indicators, pressure switches, needle valves, manifold valves, pressure snubbers, bimetal thermometers, force measurement and diaphragm seals. These products meet and exceed the application requirements of OEM's and industrial users seeking exceptional quality, reliability and value.
