

NOSHOK

Press Release

FOR IMMEDIATE RELEASE

THE TROUBLE SHOOTER

Berea, Ohio (August 3, 2011) NOSHOK 300 Series Brass Case Gauges with the optional Maximum Indicating Pointer (also referred to as the “Trouble Shooter”), are an invaluable tool for performing system set-up and diagnostics, and identifying spikes in a system.

- Pressure ranges from vacuum through 15,000 psi
- 2-1/2 inch case - bottom or back connected
- Heavy-duty one-piece die casting integrates all components into a solid unit to eliminate leakage
- Glycerine fill greatly reduces the effects of vibration, pulsation and shock
- Dials are printed with bold UV resistant ink for clear, long-lasting readability even when exposed to years of direct sunlight
- Maximum Indicating Pointer is easily reset with a knurled thumb screw
- Available with many other options and accessories, including front or rear flanges, chrome cover ring, chrome bezel with U-clamp, multiple lens options, adapter ring, 7/16”-20 straight thread, laser marking, stainless steel tagging, and a variety of orifice sizes
- Stock availability

3-YEAR WARRANTY
