Press Release

FOR IMMEDIATE RELEASE

SANITARY PRESSURE MEASUREMENT SOLUTIONS

Berea, Ohio (April 26, 2012) NOSHOK offers a range of heavy duty sanitary pressure measurement solutions, designed to meet the stringent demands of the food & beverage, dairy, pharmaceutical and biomedical industries. All NOSHOK Sanitary Instruments can be cleaned-in-place (C.I.P) and steamed-in-place (S.I.P), and the gauges are suitable for autoclave (only dry case gauges are recommended for autoclave). **All NOSHOK Sanitary Pressure Measurement Instrumentation meets the current standards for 3A and ASME BPE-2009.**

10 Series Fractional Gauge

- Compact size for space restricted applications
- Available ranges in vacuum and compound through 600 psi
- Process temperatures up to 300 °F (150 °C)
- Gauge size 2", clamp size 3/4"

10 Series Heavy-Duty Gauge

- Available ranges in vacuum and compound through 600 psi
- Process temperatures up to 300 °F (150 °C)
- 2-1/2" and 4" sizes available, with 1-1/2" or 2" clamped-style process connections
- Electropolished 304 stainless steel case with welded 316L stainless steel socket and clamped-style process connection
- Dry and liquid filled cases available

20 Series Homogenizer Gauge

- Available ranges from 1,000 psi to 15,000 psi
- Process temperatures up to 300 °F (150 °C)
- 4" size with 1-1/8" flanged process connection
- Electropolished 304 stainless steel case with welded 316L stainless steel socket and process connection for greater performance in high pressure applications
- Dry and liquid filled cases available

11 Series Clamped-Style Mounting Transmitter

- Available ranges in vacuum and compound through 600 psi
- Diffused semi-conductor or sputtered thin film sensor for maximum stability
- 1-1/2" or 2" clamped style connections with integral cooling extension
- Wide variety of electrical connections available

21 Series Homogenizer Transmitter

- Standard ranges from 1,000 psi to 15,000 psi
- Span and zero adjustments
- Sputtered thin film sensor for maximum stability, shock resistance and durability
- 316L stainless steel housing is welded to the 1-1/8" flanged process connection for greater strength and integrity
- Wide variety of electrical connections available

NOSHOK, Inc. is a leading supplier of pressure, level, temperature and force measurement instrumentation, along with needle & manifold valves, serving major industries around the world. Products include pressure gauges, pressure and temperature transmitters, transducers & indicators, pressure switches, needle valves, manifold valves, pressure snubbers, bimetal thermometers, force measurement sensors and diaphragm seals. These products meet and exceed the application requirements of OEMs and industrial users seeking exceptional quality, reliability and value.
