NOSHOK ANNOUNCES NEW DUAL DISPLAY DIGITAL INDICATOR

Berea, Ohio (October 7, 2014) NOSHOK announces the availability of a new addition to our “Smart System” offering of digital indicators – the 2200 Series Dual Display Digital Indicator.

This new NOSHOK digital indicator accepts a wide variety of input signals including thermocouples or RTDs, current, voltage, resistance and process signals, and features a dual display with tri-color and variable intensity digits.

The NOSHOK 2200 Series Dual Display Digital Indicator has a universal power input accepting either AC or DC voltage and 24 Vdc sensor excitation, a meter update rate of up to 160/second, and a built-in USB port for configuring with a computer. Plug-in option cards are available for field upgrading, and interface software is available on request.

Applications include pump control and monitoring, liquid level measurement, heating and cooling, force measurement, cycle counting, and flow rate measurement.

For more information on this product or other NOSHOK measurement solutions, contact NOSHOK Customer Support at 440.243.0888, visit our website at www.noshok.com, or e-mail info@noshok.com.
