Spring 2012

First In Industry to Launch Mobile Website

Now you can easily access NOSHOK product information and contact us with a click of a button on your mobile device. We are proud to lead the industry yet again with another innovative tool to serve our customers with the launch of our new mobile website.

This touch-optimized, mobile friendly site is designed to accommodate all popular smart phones and tablets, and showcases NOSHOK's comprehensive product offering in a simple, easy-to-navigate format.

The mobile site's navigation allows for quick product reference with convenient links to request more information via e-mail on every product page, as well as click-to-call buttons. In addition to product information, the site provides key corporate contact links, a Google Map locator, and a featured product section for promotions and discounts.

To access NOSHOK's mobile site, direct your mobile device's browser to <http://www.noshok.com> or simply print and scan the QR code on this page. For quick and convenient future navigation add a bookmark icon to your device.

Below is an example of how to save a bookmark on an Android device.

- While on the mobile site add it as a bookmark
- Go to the home screen you want to add the icon to
- Long-press in an empty space to bring up the "Add to Home Screen" menu
- Select "Shortcuts"
- Select "Bookmark"
- Choose your bookmark

PRODUCT FOCUS

NEW:

Valve Product Solutions Catalog Now Available For Pre-Order

Our all new Valve Product Solutions catalog is in the final stages of production, and is now available for pre-order! This catalog includes our comprehensive offering of both needle and manifold valves, as well as options and accessories. We'll also be rolling out brand new valve products, so make sure to click the link below the picture to pre-order your copy.

Our valve line includes standard bore and large bore manifold valves, needle valves, and block and bleed valves with hard or soft seat designs for isolation of key instrumentation. **NOSHOK carbon steel valves are among the first in the industry to come standard with zinc-nickel plating**, an alloy which provides exceptional corrosion resistance.

Other benefits of zinc nickel plating include:

- Increased deposit hardness
- Extended wear resistance
- Longer service life
- WEEE and RoHS compliant

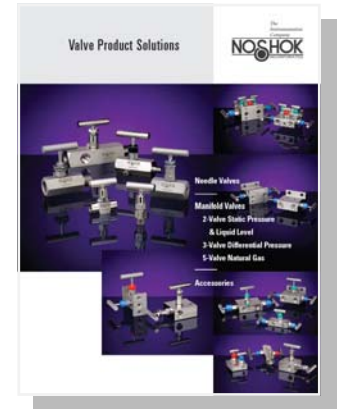

Digital Gauge 4,000 Hours Battery Life

Our 1000 Series Digital Gauge is offered at a highly competitive price and provides excellent accuracy with 4,000 hours of battery life. Standard ranges include 30 psig to 10,000 psig; compound from 30/30 psig to 30/600 psig and standard measuring units are psi, bar and MPa. Its liquid crystal display also features an integrated bar graph with trailing indicating pointer to show trends in a working pressure system.

Options include Tare function, password protection, min./max. memory, internal lighting, 300° rotatable base, Rubber Case Protector. This gauge meets all electromagnetic compatibility requirements (EMC) to EN 61326.

Expanded Bimetal Thermometer Offering

To better accommodate customer requirements, we have implemented a significant stock item expansion of our bimetal thermometers, including new dual scale Fahrenheit/Celsius ranges and single scale Fahrenheit and Celsius ranges. We have also increased our stock offering of stem lengths. Call our Customer Support Team at 440.243.0888 today for details!

REMOTE TEMPERATURE MEASUREMENT ON SERVICE TRUCKS TO OIL & GAS INDUSTRY

NOSHOK's versatile, heavy-duty [Vapor-Actuated Remote Thermometers](#) are ideal for remote panel installations on service trucks in the oil and gas industry.

Because they are vapor actuated, these custom-made thermometers are not subject to error due to ambient temperature variations along the capillary tube, so they provide highly accurate readings above and below ambient conditions.

NOSHOK offers Vapor-Actuated Remote Thermometers in 2", 2-1/2", 3-1/2", 4", and 4-1/2" sizes to fit virtually any panel, and ranges are available from -40° to 60 °F/C through 50° to 400 °F/C.

[Click for high res image](#)
[Click for more info](#)

They are available with a brass or stainless steel case, with bottom, back or lower back connections.

Options include dry or liquid fill (optional fill fluids include glycerine, glycerine-H₂O and silicone), front or rear flange, bezel, and U-clamp.

NOSHOK Vapor-Actuated Remote Thermometers are also ideal for:

- Power transformers
- Paper mills
- Refineries
- Petrochemical
- Chemical
- HVAC/R

NOSHOK Soccer Team Wins 6th SCORES Championship

The NOSHOK Coed International FC kicked off the 2012 season with a championship at CSU's Krenzler Field on March 10th in the [America SCORES Cup Tournament](#).

The team went undefeated for the day winning the championship match 7-2 and defending its 5 previous championships in this event. NCIFC improves the team record to 88-13-3 since March 2008 as they make their way to 100 wins by year end.

NCIFC would like to thank its corporate sponsors for their ongoing support! The NOSHOK team is sponsored by Morgan Stanley Smith Barney, Global Technical Recruiters, C.H. Robinson International, Frontline Soccer Shop and Adecco.

NOSHOK Hits The Road in 2012

We'll be kicking off our trade show schedule this year with the OOGA Annual Winter Meeting in Columbus, Ohio. On the heels of that event, we have a very busy show schedule slated, including:

| | |
|--|-------------|
| Offshore Technology Conference | 4/30-5/ 3 |
| Four Corners Oil & Gas Conference | 5/9-5/10 |
| Eastern Gas Compression Roundtable | 5/8-5/10 |
| Williston Basin Conference & Exposition | 5/22-5/24 |
| Global Petroleum International Oil Show | 6/12-6/14 |
| Appalachian Gas Measurement Short Course | 8/14-8/17 |
| CBM Energy Exposition | 8/15-8/16 |
| PIOGA Easter Oil & Gas Conference | 8/28-8/29 |
| Wyoming Gas Fair | 9/12-9/14 |
| PBIOS | 10/16-10/18 |
| Power-Gen International | 12/11-12/13 |

TECH TIP

Q: In what situation would a pigtail syphon be used?

A: Pigtail syphons should be used in steam applications and systems that contain superheated vapor. The pigtail buffers the instrument from the damaging effects high temperature steam by holding system fluid in the coil to provide a steam trap for the fluid to condensate and dissipate the heat.
