NOSHOK ANNOUNCES NEW COMPACT OEM TEMPERATURE TRANSMITTER

Berea, Ohio (September 15, 2014) NOSHOK announces the availability of the new 810 Series Compact OEM Temperature Transmitter, which is ideal for applications including mobile hydraulics, automotive, heat exchangers, HVAC, transportation and refrigeration controls.

The NOSHOK 810 Series Compact OEM Temperature Transmitter is a compact size transmitter at an economical price, with standard temperature ranges from -25 °F to 125 °F through 0 °F to 250 °F.

This transmitter features a proven 100 Ω platinum resistance sensor which provides reliability, stability and unbeatable performance, and a 316 stainless steel housing. A 4 mA to 20 mA transmitter is included.
