NOSHOK Announces Upgraded Differential Pressure Gauges, Improved Delivery Times

Berea, Ohio (October 23, 2018) NOSHOK is pleased to announce our re-engineered and expanded Piston Type and Diaphragm Type Differential Gauges. These new gauges provide increased capabilities, many more available options including switch and transmitter options, new 6" dial size, and significantly improved delivery times of 1 to 2 weeks for most models.

Available in 2-1/2", 4-1/2" and now all new 6" dial sizes, the upgraded NOSHOK 1000 Series Piston Type and 1100 Series Diaphragm Type Differential Gauges are compact gauges that feature a rugged engineered plastic gauge case

and anodized aluminum and 316 Stainless steel wetted parts. A shatter-resistant acrylic lens is standard on all sizes and models.

These new NOSHOK Differential Gauges are now available with single and dual switch options, as well as a 4-20 mA transmitter option in a NEMA 4x IP65 plastic enclosure. A variety of mounting options, connections, o-ring and diaphragm materials are available. Options include mounting holes, pipe mounting kits, reversed ports and stainless steel tagging.

The 1000 & 1100 Series Differential Pressure Gauges are available dry or liquid filled, and backed by an increased 5 year warranty on all models.

These NOSHOK Differential Gauges are ideal for applications including:

- Back flow testing
- Heat exchangers
- Filter monitoring
- Flow indication
- Level indication
