Measurement Solutions for the Food & Beverage Industry

Quality
Focus

Superior Design

Increase Efficiency

High quality solutions
with a focus on customer
experience and value.

Uniquely designed to
address the specific
requirements of the
industry.

Provides a high level of
efficiency and flexibility.

High quality solutions
with a focus on customer
experience and value.

- Pressure & temperature sensors are located directly behind the diaphragm, minimizing fill fluid and enabling active temperature compensation directly at the point of measurement
- Standard onboard programming with no pressure source required; also available with Hart® protocol
- All polished Stainless steel construction

- Turndown ratios up to 10:1 allow greater rangeability, minimizing required inventory

- Accuracies are based on adjusted span, not full scale
- 360° rotatable display

- NOSHOK's Customer Support team is trained and ready to provide custom Measurement Solutions
- We take a collaborative approach with our partners, and are dedicated to continuous product and process improvement
- Industry-leading 3-year warranties
- ISO 9001:2015 registered
