All Stainless Steel Extreme High Pressure Gauges

Backed by our extended warranty, NOSHOK 402/502 Series corrosion-resistant dry or liquid-filled gauge Extreme High Pressure Gauges are in compliance with the new DIN 16001 standard, which specifically addresses extreme high pressure ranges starting at 30,000 psi.

These gauges exceeded the minimum requirements of the specification by more than 20 times in our qualification cycle testing. Ideal for applications including pumps & compressors, high pressure processing, test equipment & systems and waterjet cutting.

Features include:

- 4" and 6" gauge sizes
- Solid front design with a blow out back in accordance to EN837, S3 Safety Pattern
- Safety glass lens
- Ranges from 0 psi to 30,000 psi through 0 psi to 85,000 psi
- Most ranges available from stock for quick delivery

Benefits include:

- Improved load cycle stability
- Improved calibration stability
- Significantly longer service life
- Reduced down time

These features combine to provide higher safety levels, improved reliability and reduced maintenance costs, resulting in a lower total cost of ownership.
