

Intelligent Tank & Silo Pressure Transmitters FOR THE FOOD & BEVERAGE INDUSTRY

9 KEY ADVANTAGES

1
Exclusive design
positions pressure &
temperature sensors close
to the media directly
behind the diaphragm

Allows active and rapid
temperature compensation
which provides faster,
more accurate readings

2
Unique
compact diaphragm

Provides increased strength
and durability over larger
diaphragms, delivering
long life and reducing
potential for damage

3
Turn down ratios
up to 10:1

Allow more flexibility
in ranges and reduces
required inventory

4
360°
rotatable display

Provides flexibility
and readability in multiple
mounting positions

5
Accuracy 0.1%
based on adjusted span,
not full scale

Provides higher accuracy
regardless of the
range selected

6
Easy programming
via on-board display

No reference pressure
is required for
range adjustment

7
All spud process
connections available
(Anderson- Negele,
E+H, KING-GAGE,
Rosemount, Tank Mate)

Direct fit to the shell installed,
no adaptors or equipment
adjustments required

8
The same programming
is used for all of these
NOSHOK transmitters

No additional training or
potentiometers required

9
All Stainless Steel
construction,
including housing

Durable, hygienic,
meets 3A requirements

NOSHOK Has Acquired **KING-GAGE**
A NOSHOK Company

Intelligent Tank & Silo Pressure Transmitters FOR THE FOOD & BEVERAGE INDUSTRY

20 SERIES

Intelligent Silo & Tank Level Sanitary Pressure Transmitter

- NOSHOK can provide every connection available with no adaptors needed
- Vent plug located on the back of the sensor head is easily popped out and replaced
- CIP & SIP

25 SERIES

Intelligent Pressure & Level Transmitter

- Tri-Clamp® connection
- Ideal for balance tanks as the active temperature compensation provides very fast readings and reduces the potential for overflows
- CIP & SIP

30 SERIES

"SNORKEL" Pressure & Level Transmitter

- Developed for wash down applications and where space restricts easy adjustment
- Electronics remotely mounted for convenience and safety
- CIP & SIP

Custom cable lengths

*Custom engineered
process connection solutions*

*Optional
diaphragm materials*

FOOD PROCESSING | BEVERAGE | DAIRY | SILO & TANK LEVEL
