As a producer of measuring instrumentation and valve products located outside of the European Union, NOSHOK is not bound by the obligations of the REACH directive. NOSHOK does recognize an obligation to share information related to Substances of Very High Concern with distributors and other interested parties upon request. In recognition of Article 33 of the REACH Regulation, NOSHOK reviews the candidate list at relevant intervals and voluntarily shares information regarding SVHC with requestors and other interested parties. NOSHOK is not aware of any substances of very high concern (SVHC) used in our products and packaging in concentrations above 0.1% by mass that are included on the candidate list updated on July 08, 2021, with the following exceptions:

NOSHOK products produced from metals (carbon steel, aluminum and copper alloys) as well as electronic components may contain in excess of 0.1% lead, CAS No 7439-92-1, EC No 231-100-4, which is listed as a SVHC according to REACH.

NOTE: Lead is insoluble in the alloys listed above.
