

# Declaration of Conformity

## EU Directive RoHS 3 (EU 2015/863) November 17, 2022

Compliance with hazardous substance restrictions according to EU Directive 2015/863 is not applicable to all of our products at this time. As of July 22, 2019, four new items were added to the list restricted substances - all phthalates. The four phthalates are mainly used as insulation plasticizers. It is NOSHOK's intention to comply with the requirements of EU Directive 2015/863 to ensure that our products are free from hazardous substances. To this end, NOSHOK has implemented a program that provides reasonable confidence to avoid the usage of environmentally hazardous substances in our products.

Substances and thresholds covered under RoHS 3 include:

- Cadmium (Cd): < 100 ppm
- Lead (Pb): < 1000 ppm
- Mercury (Hg): < 1000 ppm
- Hexavalent Chromium: (Cr VI) < 1000 ppm
- Polybrominated Biphenyls (PBB): < 1000 ppm
- Polybrominated Diphenyl Ethers (PBDE): < 1000 ppm
- Bis(2-Ethylhexyl) phthalate (DEHP): < 1000 ppm
- Benzyl butyl phthalate (BBP): < 1000 ppm
- Dibutyl phthalate (DBP): < 1000 ppm
- Di isobutyl phthalate (DIBP): < 1000 ppm

NOSHOK branded electrical products comply with EU Directive 2015/863. Mechanical products such as pressure gauges and valve products are not governed by EU Directive 2015/863. Most of these products are compliant to the RoHS directive. If you require immediate confirmation that specific products are free of the hazardous substances named in this directive, NOSHOK can provide confirmation of compliance.

NOSHOK, Inc. believes to the best of its knowledge that the above statement is accurate as of the date of this letter and the statements and certifications of suppliers or service providers of NOSHOK, Inc. may have been relied upon in the preparation of this statement.
